WORK EXPERIENCE

Jul 2021 - present
Seoul, Korea

HYPERCONNECT | Part of Match Group (NASDAQ: MTCH)

Engineering Manager, ML Software *Aug 2025 - present*

Leading a software engineering team within the "Match Group AI" department, overseeing AI/ML initiatives in collaboration with Match Group brands including Tinder, Hinge, and Pairs.

- Drive innovative AI features by proactively developing prototypes to pitch to product teams, successfully securing roadmap integration and seamless deployment to millions of global users. (Tinder Photo Insights, Photo Suggestion, Profile Coaching, etc)
- Contribute to core ML infrastructure for Tinder and Pairs, accelerating the deployment of next-generation recommendation models through enhanced ML system engineering.

Senior Machine Learning Software Engineer *Mar 2024 - Jul 2025*

Led cross-team projects, guided juniors, and contributed to the company's business by software engineeing while managing technical debt. Mainly designed, implemented, and reviewed ML systems.

- Tinder new AI initiative (Chemistry).
- Recommendation system for Azar, Hakuna, and Enterprise.

Machine Learning Software Engineer *Jul 2021 - Feb 2024*

Designed and developed backend servers and data pipelines interacting with machine learning models. Served in technical or project lead roles for small projects. As a result, AI recommendation has driven Azar's double-digit Y/Y revenue growth in 2023 (ref).

- Azar 1:1 matchmaking recommedation system (session-based recsys) (2022 - 2024)
- Hakuna Live / Enterprise live platform recommedation system (2021 - 2024)
- ML Feature Store (2022 - 2024)
- Others: *Infra cost optimization on various ML projects, user search system for Hakuna and Enterprise live platform, ML-based trust & safety system, developed company-wide internal tools (Internal ChatGPT, etc), and led various TFs (OKR, hiring).*

EDUCATION

Sep 2019 - Aug 2021
Daejeon, Korea

M.S. in Computer Science, KAIST

GPA: 4.0 / 4.3, Advisor: Sunghee Choi
Thesis: *Progressive Transmission and Inference of Deep Learning Models Served over Network*

Mar 2015 - Aug 2019
Seoul, Korea

B.S. in Computer Science, Hanyang University

GPA: 3.97 / 4.5
